

# IoT Office Solution

No more repetitive tasks. Say Hi to a smarter office space.

## 01.

### Working Space

#### ● Occupancy Detection

Detect if the seat is taken, managing available workspace for hot desking

#### R718PQ

##### Wireless Short-Range Occupancy Sensor

- Detect occupancy status through PIR sensor
- Detecting distance: 3.8m; angle: 72°

#### ● Indoor Air Quality Monitoring

Monitor air quality at office, ensuring employees have a healthy working environment

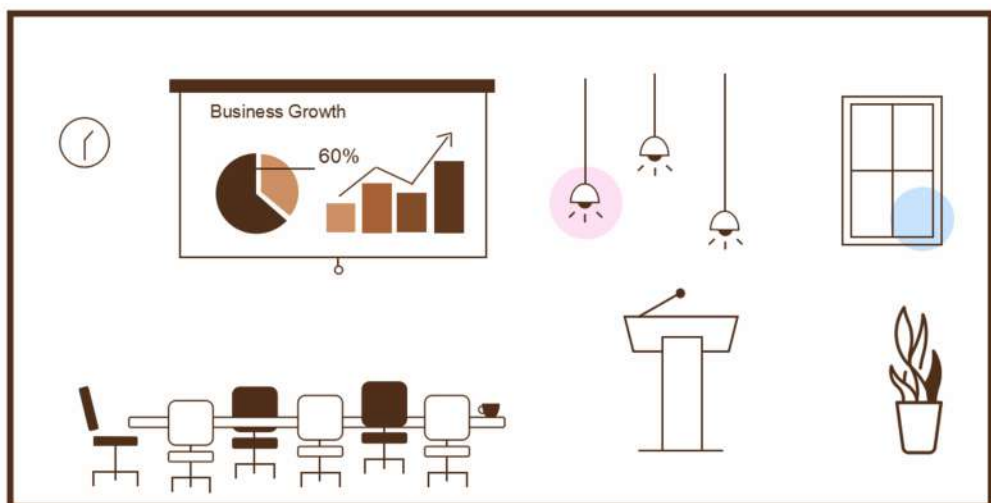

#### RA08 Series

##### Multifunctional IAQ Sensor

- TVOC / CO<sub>2</sub> / NH<sub>3</sub> + H<sub>2</sub>S / O<sub>3</sub> / CH<sub>2</sub>O / PM2.5 Detection
- 2.13-inch E-ink Display

## 02. Meeting Room

### ● Light Control

Remotely control the lights, simplifying office life

#### R816B / R816B01

##### Wireless Wall-Mounted Power Socket

- Remotely turn on / off light
- Current, voltage, power, and overcurrent detection

### ● Window Open / Close

Detect the status of windows, improving the security of working environments

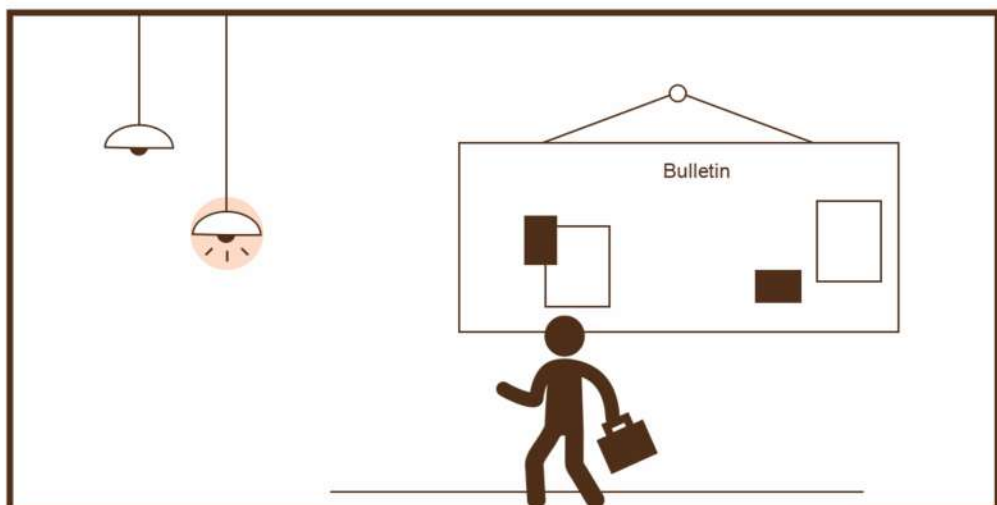

#### R313A

##### Wireless Door / Window Sensor

- Detect the status of window and door
- Send report as the status changes

## 03. Hallway

### ● PIR

Connect with a light, turning it on only when a motion is detected

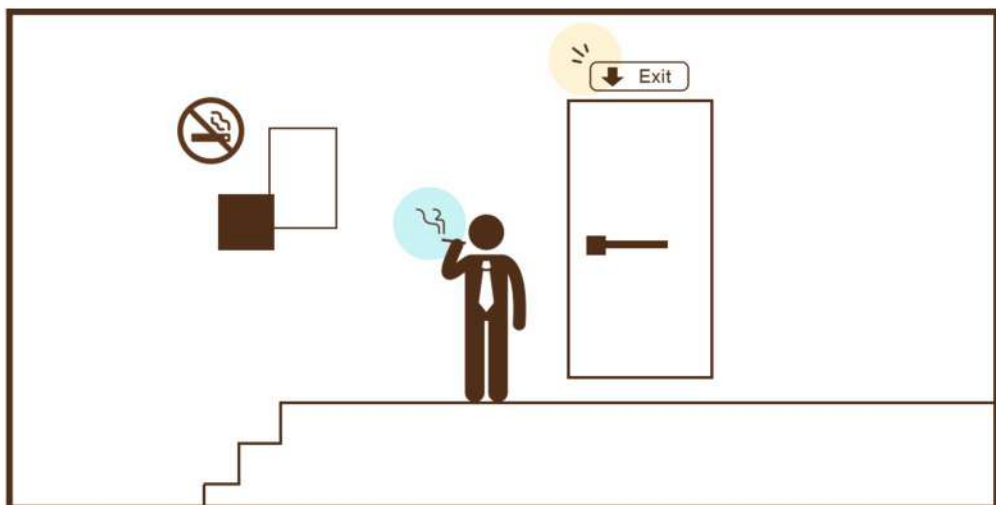

#### RB11E

##### Wireless Occupancy / Light / Temperature Sensor

- Detect motion, illuminance, and temperature
- Send report as the motion status changes

# 04. Stairwell

## ● Smoke Detection

Detect smoke, helping provide a safer and healthier air quality

### RA02G

#### Wireless Cigarette Smoke, Vaping, and Bullying Alarm Sensor

- Anti-tamper / high-temperature alarm
- Backup battery support
- Adjustable sensitivity
- Customized alarm sounds

## ● Emergency Alarm

Sound the siren, notifying employees as emergency happens

### R602B

#### Wireless Siren

- 4 types of alarm sounds and 2 flash modes
- Backup batteries support
