

# Netvox V3 IoT System

**“ Get Everything Done in One Platform ”**

Netvox V3 manages multiple wireless devices, organizes data, and works in various applications.

It helps ...

- Support LoRa private network for safer network connection
- Access to ChirpStack data to support LoRaWAN network
- Connect to Helium for hotspot exploration and check data through MyNet APP
- Compatible with Wi-Fi, Helium, LoRa private, LoRaWAN, and NB-IoT

Multi-Gateway  
Management

Support on  
Third-Party Gateway

Multi-Network Compatibility  
( LoRaWAN & Helium & WiFi)

500+ Netvox  
Multi-Functional IoT  
Devices

Friendly App/PC  
Interface

Support on  
Third-Party Cloud

Friendly App -  
Graphical Condition-  
Based Linkage Settings

Stable Communication
