

## R726 Series

### Wireless Outdoor Sensor with Solar Panel

#### Eco-Friendly

Solar-powered.  
No need to wire or  
replace batteries.

#### For Outdoors

Cover to protect  
sensor from  
raining

#### Various Sensor Options

Different sensor  
configurations suit  
all your needs.

## Air Quality Detection

Take a deep and fresh breath.

#### R72601

CO

#### R72615

CO<sub>2</sub> / Temperature / Humidity

#### R72616

PM2.5 / Temperature / Humidity

## Wind Detection

Keep yours still and undamaged.

**R72630**

Speed  
Direction

## Noise Detection

Hear everyone perfectly.

**R72624**

Noise  
Temperature  
Humidity

## Others

Multi-functional. Get all you needs at once.

**R72623**

PM2.5  
Noise  
Temperature  
Humidity

## Water Detection

Keep it clean and crystal clear.

**R72608**

PH

**R72610**

Turbidity

**R72611**

Water level

# Where Can I Use R726 Series?

Made for outdoor environments.  
Multi-functional sensors suit all your requirements.

## Agriculture Monitoring

- Monitor the CO<sub>2</sub> condensation
- Prevent crops from lodging

## Industrial Monitoring

- Protect labor from noise pollution
- Prevent long-term exposure to PM2.5
- Detect liquid level to get an accurate measurement

## Aquaculture Monitoring

- Maintain water conditions by monitoring turbidity and PH
