

R900 / N900 Series

Water Quality Monitoring

NEW IN THE UPGRADE

-  Support 7 Different Mounting Types
-  NFC App For Easy Configuration
-  Large Memory for 10000 Packets of Data
-  ER18505 for Longer Battery Lifetime
-  Connected 4G Camera for IoT Visualization
-  Optional Transmission Protocols

R900PD01O1

Wireless Water pH / Turbidity / Residual Chlorine Sensor with 1 x Digital Output

Turbidity

0 to 1000NTU

pH

0-14PH

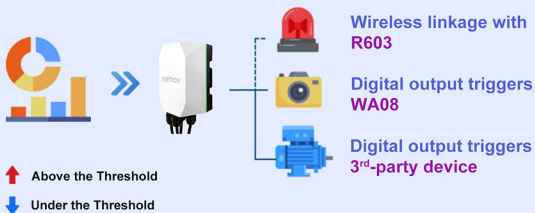

Residual Chlorine

0 -10mg/L

Water Temperature

0°C - 65°C

Threshold Alarm

See, Hear, and Link

When the R900PD01O1 detects turbidity, residual chlorine, pH, or temperature values exceeding or falling below their thresholds...
