

RA02D1

Wireless Liquefied
Petroleum Gas Detector

Keep Indoor Environments Safe and Comfy

LEL Alarm

Temperature Alarm

Why You Need an LPG Detector?

Home & Restaurant

Installing RA02D1 in your kitchen.

It helps you monitor LPG concentration and sound the alarm as danger occurs.

Factory

Installing RA02D1 near gas pipelines.

It detects toxic gases, such as propane and butane, protecting employees and properties from possible dangers.
