

## Netvox Z828 Programmable 6 Scene Control Touch Switches - Upgraded from the Z825 series

Netvox launched a new series of touch switches! The new Z828 series has all the features of Z825 with an elegant metal frame, available in champagne gold, black and silver with either sandblasted finish or hairline finish. The scene icons can be customized according to your preference.

High Quality Craftsmanship  
Sandblasted Finish or Hairline Finish

It has an unprecedented design with industry-leading features. It is remote controllable based on IEEE 802.15.4 ZigBee wireless communication protocol.

As a Router device in the ZigBee network, it provides local control and allows other devices to join the network. It can be paired with multiple end devices as well.

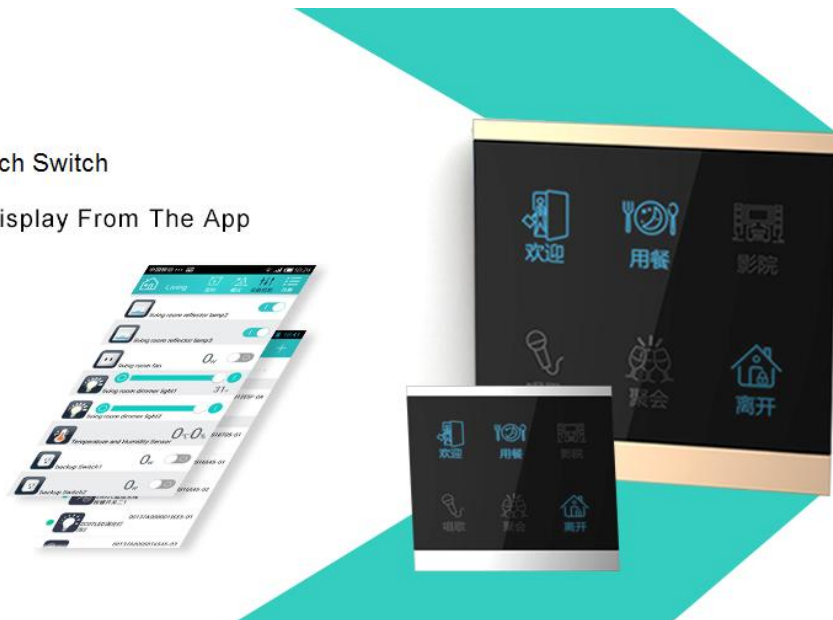

As a ZigBee router, Z828 allows other devices to join the network.

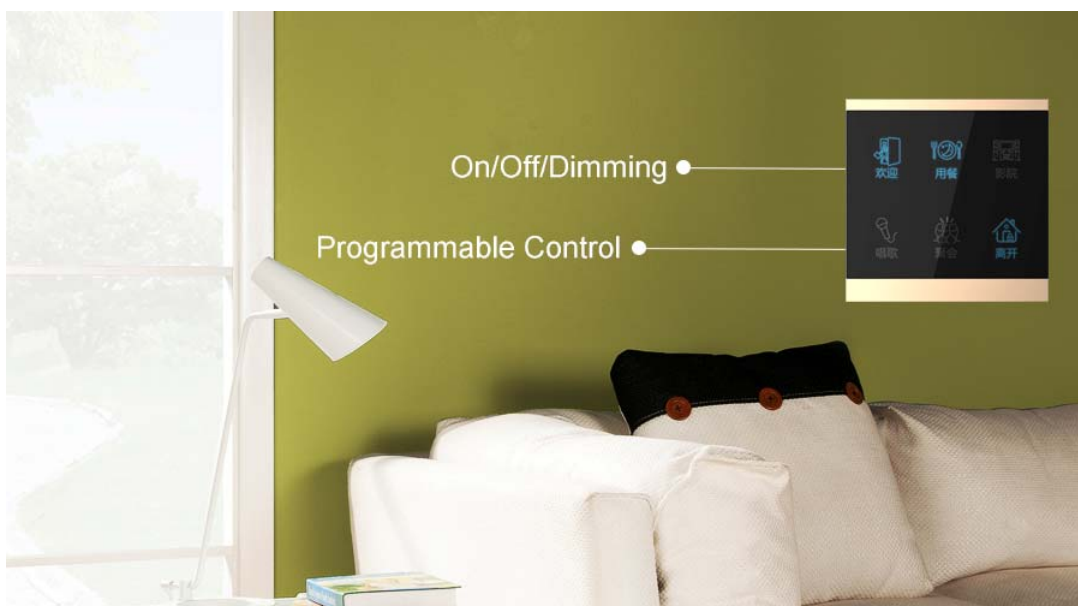

It is equipped with touch switches and enables users to monitor and control the devices from the app.

Capacitive Touch Switch

Real-time Display From The App

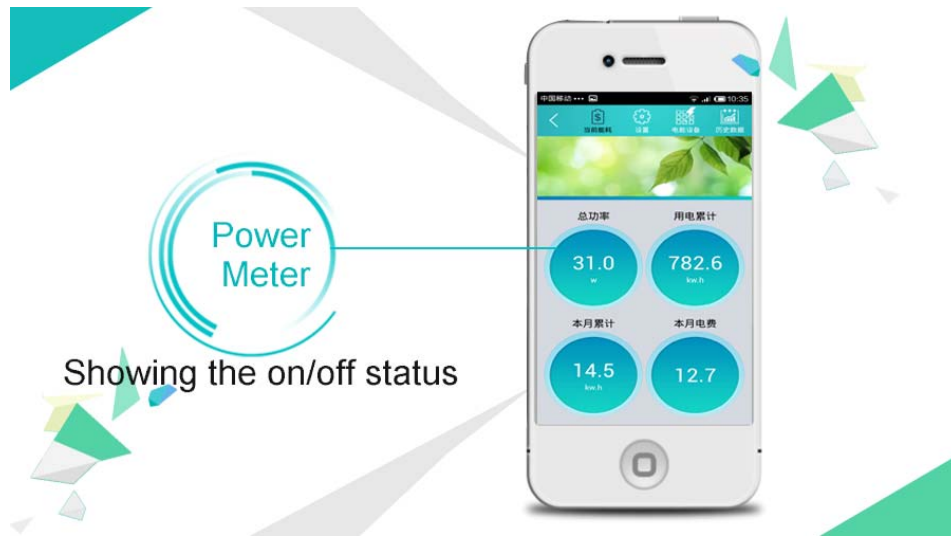

It can be programmed as an on/off/dimming switch.

The app displays real-time power consumption and helps you change your power habits.

Monitor real-time power usage at different times, track the energy use of the appliances and help you save money on the electricity bill.

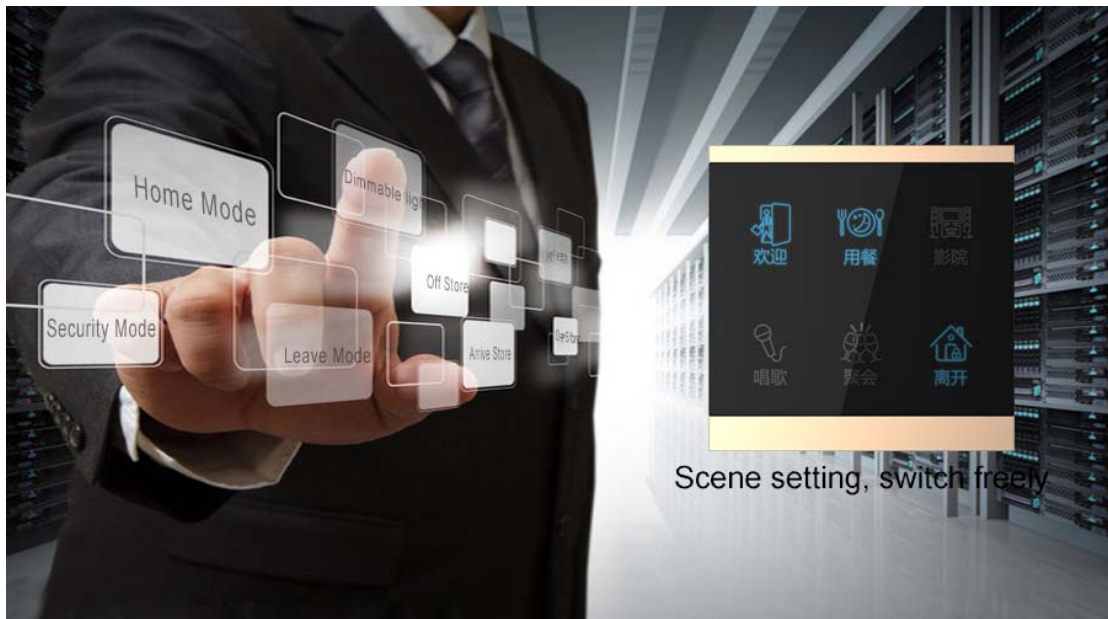

When the device measures abnormal current or the peak power 150A from the appliance, it will cut the power automatically for safety concerns.

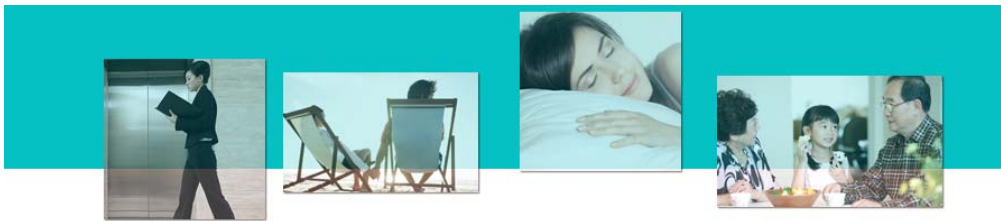

It can be programmed as an on/off switch or scene control switch based on your needs and can perform mode controls such as Home, Away, Dining and Meeting. The scene icons can be customized according to your preference.

Scene setting, switch freely

Setting tools are available for changing the scenes on-site.

**Setting tools are available for changing the scenes on-site.**

The high-quality Z828 series are manufactured in the ISO-9001 certified factory wholly owned by Netvox.

The Z828 series are designed in line with the strict EU standards and requirements. They can fit in with various interior design styles such as modern minimalist, country, European, Mediterranean and South Eastern Asian. Netvox presents you the new switches for a wider range of applications.
