

Wireless Sensor Network Based on LoRa Technology

R313LA (Subject to the real object)

# R313LA Data Sheet

#### Copyright@Netvox Technology Co., Ltd.

This document contains proprietary technical information which is the property of NETVOX Technology and is issued in strict confidential and shall not be disclosed to other parties in whole or in parts without written permission of NETVOX Technology.

The specifications are subjected to change without prior notice.

#### Introduction

R313LA is able to detect the existence of an object nearby. It has an infrared proximity sensor that can detect if there is an object existing within its detection range and transmits the detected data to Gateway for display via a wireless network; it uses the SX1276 wireless communication module.

#### **Main Features**

- Applying SX1276 wireless communication module
- 2 sections of 3.0V CR2450 button batteries in parallel
- Infrared proximity sensor
- Compatible with LoRaWAN<sup>TM</sup> Class A
- Using frequency hopping spread spectrum technology
- Configure parameters through third-party platform
- Applicable to third-party platforms: Actility / ThingPark, TTN, MyDevices / Cayenne
- The product has low power consumption and supports longer battery life

#### Note:

The battery life is determined by the frequency reported by the sensor and other variables, please refer to <a href="http://www.netvox.com.tw/electric/electric\_calc.html">http://www.netvox.com.tw/electric/electric\_calc.html</a>.

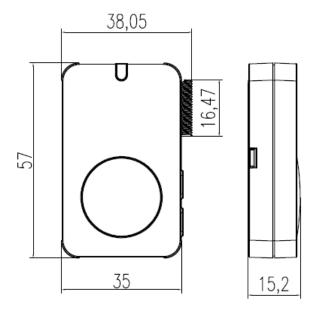

On this website, users can find various types of batteries with different configurations.

#### **Application Scenario**

- Presence of toilet paper
- Other

### **Dimensions**

#### **Electrical**

Input Power Supply	2 sections of 3V CR2450 button batteries in parallel
	(single CR2450 battery capacity 620 mAh)
Working Voltage Range	DC +2.4 V to 3.0V
Sleeping Current	12uA / 3.0V
Emission Current (Max)	120mA / 3.0V
Receive Current (Max)	11mA/3.0V
Battery Measurement Accuracy	$\pm 0.1V$

<sup>\*</sup> Specific electrical characteristics will vary depending on the power supply voltage

## **Infrared Proximity Sensor**

Sensing Distance	The effective detection distance is about 5cm
	(the data is not a specific distance value).
	The detection distance will vary according to different objects
	detected, and the data is nonlinear.

## **RF** Characteristics

Frequency Range	863MHz-928MHz 470MHz-510MHz
Power Output	US915 20dbm;
	AS923 16dbm;
	AU915 20dbm;
	CN470 19.15dbm;
	EU868 16dbm;
	KR920 14dbm;
	IN865 20dbm;
Receive Sensitivity	-136dBm (LoRa, Spreading Factor=12, Bit Rate=293bps);
	-121dBm (FSK, Frequency deviation=5kHz, Bit Rate=1.2kbps)
Antenna Type	External antenna
Communication Distance	Up to 10 km, the actual transmission distance depends on the environment.
Data Transfer Rate	0.3kbps ~ 50k bps
Modulation System Mode	LoRa / FSK (Note: you can choose one of them)
Supported LoraWAN Band	EU863-870, US902-928, AU915-928, KR920-923, AS923, CN470-510
	(Note: Band optional, to be done in the factory configuration before
	shipment.)

## Physical

Size	57 mm x 35 mm x 15.2 mm
Weight	48.9g
Operating temperature	-20°C ~55°C
Ambient humidity range	<90% RH (no condensation)
Storage temperature range	-40°C ~ 85°C
